Mergers and Acquisitions - Wikipedia, the free encyclopedia

Acquisitions, mergers, sales, buyouts, and divestitures. An acquisition can take the form of a purchase of the stock or other equity interests. A divestiture involves the sale of a portion of a company. Since only the book values of the assets and liabilities are considered, there is no goodwill result. Mergers and acquisitions - Wikipedia, the free encyclopedia

Merger. d. leveraged buyout. e. consolidation. Difficulty level: Easy

The term merger and acquisition (M&A) refers to the process of combining or acquiring a business entity. Mergers and acquisitions can be classified into different categories based on the type of transaction involved. One type of acquisition is the reverse merger, a form of transaction that enables a company to acquire another company. A financial acquisition can be found in what is primarily known as 'The Blue Book'.

Restructuring
Sales enhancement can occur because of market share gain, technological changes, and increased efficiency. A financial acquisition occurs when a buyout firm is motivated to purchase the assets of a company. Through buyouts or financial leverage, it is referred to as an acquisition (also called a takeover). A merger or acquisition is a combination of two companies where one company is acquired by another. The prospect of a lucrative sale induces entrepreneurs to form new firms. Through buyouts or financial leverage, it is referred to as an acquisition (also called a takeover). A merger or acquisition is a combination of two companies where one company is acquired by another.
A management buyout occurs when incumbent management takes ownership of a firm by purchasing a sufficient amount of the firm's common stock. The LBO is a common form of financing for large transactions. Schwart, Charles A. Acquisitions, Mergers, Sales, Buyouts, and Takeovers: A Handbook with Forms. 4th ed.
