Bangladesh is one of the world's most densely populated countries, with its people crammed into a delta of rivers that empties into the Bay of Bengal. Bangladesh is a unitary parliamentary republic with an elected parliament called the Jatiyo Sangshad. The native Bengalis form the country's largest ethnic group.

A baby girl has been born with two heads in Bangladesh, according to medical officials. Her father, a farm labourer, said he was worried she was a twin due to his family’s religious beliefs. The child was born in a hospital in Brahmanbaria, Bangladesh. It is thought this is the first case in the world. The Embassy of Bangladesh in Washington DC - Home 1 day ago. A baby girl has been born with two heads in Bangladesh, according to medical officials. Her father, a farm labourer, said he was worried she was a twin due to his family’s religious beliefs. The child was born in a hospital in Brahmanbaria, Bangladesh. It is thought this is the first case in the world.
