Basic Dimensions In Conscious Thought: The Self And Socialization Of Human Concerns

George A De Vos; Eric De Vos

Basic Dimensions in Conscious Thought: The Self and Socialization of Human Concerns by George A. De Vos, Eric S. De Vos, published in 2002. Basic Dimensions in Conscious Thought: The Self and Socialization of Human Concerns presents an interdisciplinary approach to the study of human concerns, focusing on the self and socialization from a cross-cultural perspective. The book explores how the self and socialization are shaped by cultural and historical contexts, and how they influence individual development and social interaction. It covers topics such as identity formation, social cognition, and social development, providing insights into the complexities of human concerns in different cultural settings. This book is a valuable resource for researchers, students, and practitioners interested in cross-cultural psychology, social cognitive theory, and the psychology of gender. It offers a framework for understanding the interplay between the self and socialization in the formation of human concerns.
