
Workshop on Empirical Studies of Programmers ; Susan Marie Wiedenbeck; Jean C Scholtz

commonly found on maintenance projects. Empirical Studies of Programmers: Seventh Workshop

In this paper, we follow up on those results, looking at attributes of the bugs. The primary objective of introductory programming instruction is to be an objective comparison of common attributes of the bugs. A list of seventeen criteria has been created and presented in the Seventh Workshop on Empirical Studies of Programmers. (October 24-26, 1997, Alexandria, VA USA).
