Hidden Agenda: From User Empowerment To Health Promotion

Author/Editor(s): Debora Singer; Edited By Colin Rochester. Full Title: Hidden Agenda: From User Empowerment To Health Promotion

This book provides a comprehensive overview of the concept of user empowerment in the context of health promotion. It explores the challenges and strategies involved in promoting health by empowering users. The book includes case studies, principles, and practical applications for those working in the field of health promotion.

Key topics covered include:
- The importance of user empowerment in health promotion
- The role of health promoters in facilitating user empowerment
- Strategies for empowering users in healthcare settings
- Case studies illustrating successful user empowerment initiatives
- The impact of user empowerment on health outcomes

This book is a valuable resource for professionals working in the field of health promotion, providing practical insights and guidance for those committed to empowering users in the pursuit of better health.
