Optimization Of Multi-neuron Recordings Using Micro-machined Electrode Arrays

Steven Michael Bierer

Catalog Record: All-silicon micromachined acoustic ejector arrays. Optimization of multi-neuron recordings using micro-machined. Titanium-Based Multi-Channel, Micro-Electrode Array for Recording. MSc. Projects - Circuits and Systems - TU Delft Overview. The development of multi-channel neural recording systems allows the placement of standard microelectrode arrays. Indwelling Neural Implants: Strategies for Contending with the In...
