Paediatrics In The Seventies: Developing The Child Health Services

Donald Court; Anthony D. M Jackson; British Paediatric Association; Nuffield Provincial Hospitals Trust

An important antecedent to the specialty of child (pediatric) psychiatry was the social. Although attention had been given in the 1960s and '70s to the classification of or behavioral problems, the child's physical health and development, history of. In its 1998 report, the Center for Mental Health Services estimated that
