Cat intelligence and cognition: Are cats smarter than dogs? - Slate There's no scientific method to determine how brainy your cat actually is -- but we can try to figure it out! CatChannel.com devised this clever IQ test, which could be used to measure a cat's intelligence. The test is designed to assess how smart your cat is compared to other cats. The test consists of a series of questions that measure the cat's ability to learn and problem-solve. The test is designed to be fun and engaging for both the cat and the owner. The results of the test can help you understand your cat's intelligence and how it compares to other cats. The test is available online and can be completed in just a few minutes. Start the test now and see how smart your cat is!
