France, a Nation on the Verge of a Nervous Breakdown - Jonathan, J. Herbert Fill

The Mental Breakdown Of A Nation

J. Herbert Fill

Mental Breakdown of a Nation is a book by J. Herbert Fill, published in 1974. It examines the mental state of various nations and their populations, focusing on the mental health of the American public. The book explores the factors contributing to mental health issues and discusses the role of society, politics, and culture in shaping mental health outcomes. It includes case studies and analyses of mental health trends in different countries, providing insights into the complexities of mental well-being and the challenges faced by individuals and societies in maintaining mental health.
