The Spirit of the Pioneer Woman

The Metropolitan Museum of Art

When they reached the desert in their journey west, the pioneer women, with larders beginning to run low, discovered that prickly pear cactus pads, rich in water, were a valuable source of sustenance. Many women learned to prepare and eat these pads, which were rich in nutrients and a good source of hydration.

Pioneer women of the West: E. F. Ellet, 1818-1877

Gold Rush Stories of Women Pioneers

E. F. Ellet vividly describes the experiences of women on the Oregon Trail. The journey west lasted four to six months and covered about 2,000 miles. Wagon trains were a common mode of transport, and women had to endure the challenges of travel, including harsh weather conditions and the lack of resources.
