The Sackbut Blues: Hugh Le Caine, Pioneer In Electronic Music

Gayle Young ; National Museum of Science and Technology (Canada)

Hugh Le Caine (May 27, 1914 – July 3, 1977) was a Canadian physicist, composer, and electronic music pioneer. Gayle Young’s biography, "The Sackbut Blues: Hugh Le Caine, Pioneer in Electronic Music," provides an in-depth look at his life and contributions to the field. Le Caine's early interest in electronic music led him to develop innovative techniques and instruments that significantly advanced the field. His work at the University of Montreal and later at the National Museum of Science and Technology (Canada) further solidified his status as a pioneer in electronic music. The Sackbut Blues is considered a comprehensive resource for those interested in Le Caine's life and legacy in electronic music.
