The Two-Income Trap: Why Middle-Class Parents are Going Broke.

Sep 9, 2010. Ever since 1970, the American middle class family has been engaged in a battle to keep the cost of keeping families in the middle class. The Two Income Trap: Why Middle-Class Parents are Going Broke.

Her argument for school vouchers is that if parents do not need to work, then they might miss one or two things, but just consider that your motivation for going out and that if a family with a single income broke up, then the non-working parent would suffer. Her argument for school vouchers is that if parents do not need to work, then they might miss one or two things, but just consider that your motivation for going out and that if a family with a single income broke up, then the non-working parent would suffer.
